PROFESSIONAL EXPERIENCE

Software Engineer, Sodel Software Solutions Private Limited, 04/2022 – Present | Navi Mumbai
Software Engineering & Security

- **Vulnerability Remediation:** Performed regular security audits and penetration tests on enterprise web components, identifying and manually patching 20+ critical vulnerabilities.
- **Vulnerability Remediation:** Performed regular security audits and penetration tests on enterprise web components, identifying and manually patching 20+ critical vulnerabilities.
- **Data Protection:** Architected secure communication channels by integrating HTTPS and TLS protocols, ensuring 100% encryption for sensitive client-server data.
- **Exploit Prevention:** Reduced application risk by 40% through the implementation of robust client-side validation and sanitization filters against XSS and SQL Injection.
- **DevSecOps Collaboration:** Partnered with cross-functional teams to integrate security checkpoints within an Agile SDLC, ensuring "Security by Design" for all deliverables.

EDUCATION

Master of Science in Computer Science, 03/2026
Ramniranjan Jhunjhunwala College Ghatkopar(W), Mumbai, India

Bachelor of Science in Computer Science, 05/2022
Ramniranjan Jhunjhunwala College, Ghatkopar(W), Mumbai, Maharashtra

SKILLS

Programming: JavaScript (ES6+), MERN Stack (React, Node.js), Java (Spring Boot Basics), Python(Basic)

Cybersecurity Tools: Burp Suite Professional, Metasploit, Nmap, Wireshark, Nessus, Netsparker, OWASP ZAP, Dirbuster, Wfuzz, Spiderfoot, Postman

Web Application Security: OWASP Top 10, SQL Injection mitigation, XSS prevention, CSRF protection, CSP Implementation, TLS/HTTPS

Other Skills: Secure Software Development Lifecycle (SDLC), Secure coding principles, VAPT (Vulnerability Assessment & Penetration Testing), Agile Click to edit this sectio

PROJECTS

Web Application Penetration Testing 08/2024 – Present

- **Conducted penetration tests on web applications using tools like Burp Suite and OWASP ZAP to identify vulnerabilities such as SQL injection and XSS.**
- **Delivered a comprehensive report with detailed remediation steps, improving application security posture by 35%.**

Secure Development Architecture 04/2023 – Present
Collaborated on a secure web development project, integrating secure coding practices and threat modeling to comply with OWASP standards.

Featured Security Project , External Security Consultant (Freelance) | Wix Platform 08/2025 – 11/2025
Security Audit

- **Black-Box Penetration Testing: Performed end-to-end security testing on a no-code Wix application, identifying logical flaws in third-party integrations and database permissions.**
- **Bug Remediation & Verification: Successfully identified and resolved functional bugs while performing a post-fix penetration test to ensure 100% vulnerability-free delivery.**
- **Secure Implementation: Enforced platform-level security best practices, including Multi-Factor Authentication (MFA) and secure API integration for third-party scripts.**

CERTIFICATES

Certified Ethical Hacker (CEH) - Jan 2024
EC-Council

Full Stack Development (MERN Stack) - Jan 2022
DevTown

SUMMARY

Certified Ethical Hacker (CEH) and Software Security Engineer with 3.9 years of experience specializing in Application Security (AppSec) and Sec ure Code Review. Expert in bridging the gap between development and security by implementing OWASP Top 10 mitigations, automated SAST/ DAST scanning, and manual penetration testing. Proven track record of reducing organizational risk by 40% through proactive vulnerability rem ediation and secure SDLC integration.
